EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-22, 30-33, 35-38 and 40-42 have been cancelled.

EXAMINER'S COMMENT

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 17, 2010 has been entered.

Response to Arguments

3. Applicant's arguments, see Remarks, filed June 17, 2010, with respect to the rejection of claims 23, 28 and 39 under 35 U.S.C. 103 have been fully considered and are persuasive. The rejection of claims 23, 28 and 39 under 35 U.S.C. 103 has been withdrawn.

Election/Restrictions

4. This application is in condition for allowance except for the presence of claims 1-22, 30-33, 35-38 and 40-42 are directed to an invention or species non-elected without traverse. Accordingly, claims 1-22, 30-33, 35-38 and 40-42 have been cancelled.

Allowed Claims

5. Claims 23, 28 and 39 are allowed.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:
- a. The applicant amended claim 23 to incorporate the subject matter of claim 26 and presented persuasive arguments regarding the subject matter of claim 26, no cancelled, and why it is not disclosed or suggested by Morykwas, alone or in combination with Hoover. Specifically the applicant argued that Morykwas does not disclose or suggest plural rolls of gauze and a source of suction coupled to an enclosure to directly apply suction to cause the rolls of packing to collapse inward. While Morykwas does disclose gauze, Morykwas does not disclose or suggest gauze in roll form and does not disclose the application of suction to the gauze, which is used to pack a "control" wound, only application of suction to the foam in the wound whose healing is to be monitored and compared to the control wound. Hoover discloses that it is known in the art to pack a wound with plural rolls of gauze, however since Morykwas does not disclose or suggest rolls of gauze and further does not disclose or suggest applying suction to the gauze in the control defect, the combination of Morykwas and Hoover

Art Unit: 3761

does not meet all of the limitations of claim 23. Claim 28 depends from claim 23 and is thus also allowed.

b. Claim 39 as amended recites the same limitation of plural rolls of gauze to which suction is applied to cause the rolls to preferentially collapse inward, and is therefore allowable for the same reasons as those stated *supra* with respect to claim 23.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
